THINK SMART – ACT GREEN

WEEK REPORT

Funchal, Madeira (Portugal)

MEETING, 14th – 20th may 2023

ISIT
Bassi Burgatti

ESCOLA BÁSICA E SECUNDÁRIA DR. ÂNGELO AUGUSTO DA SILVA

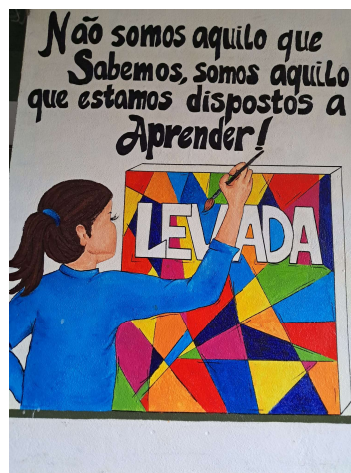

All participants landed in Funchal after a more or less exciting approach and were warmly welcomed by our portuguese colleagues.

After checking into the hotel, we were allowed to get to know a particularly picturesque place already on the first evening.

Monday 15-05-2023

"We are not what we know, we are what we are willing to learn."

ESCOLA BÁSICA E SECUNDÁRIA DR. ÂNGELO AUGUSTO DA SILVA

After a warm welcome in the hosting school we started our first working session in order to finalize our project.

In the afternoon we explored Funchal with a dedicated young guide from the “History Tellers”.

The day ended with a convivial dinner at the restaurant Deserta pequena.

Tuesday 16-05-2023

After our teachers’ working session and an invigorating lunch we visited a fish farm in the near of Funchal. Both the aquaculture facilities and the explanations of the owners/guides were very impressive.

Wednesday 17- 05-2023

After the daily working session at school we went by cable car to Monte and visited Monte palace.

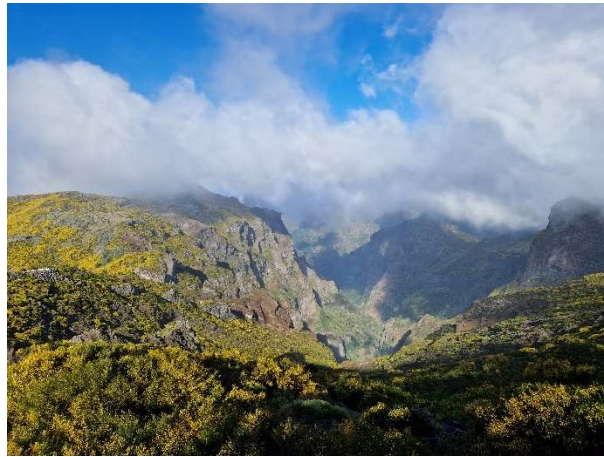

ESCOLA BÁSICA E SECUNDÁRIA DR. ÂNGELO AUGUSTO DA SILVA

Additionally, we (and especially our biology teacher) were happy about a most interesting tour through a botanical garden.

Thursday 18-05-2023

This day was reserved for our Island tour to Pico do Arieiro and Ribeiro Frio, where our Greek colleague had the unique chance to release a bird that had been nursed back to health.

After enjoying the incredible view at the Miradouro do Guindaste we visited another highlight of Madeira: Porto da Cruz with its sugarcane factory and the public sea water pools.

ESCOLA BÁSICA E SECUNDÁRIA DR. ÂNGELO AUGUSTO DA SILVA

Friday 19-05-2023

As we agreed to finish the last tasks at home we found a little more time to explore this unique island and to strengthen the contact to our hosting teachers for further cooperation.

After our farewell dinner with typical Madeira meat skewers our colleagues from Madeira handed out the certificates to all participating teachers.

Saturday 20-05-2023

Finally, we all left Madeira very confident that the project can be completed successfully.
